

Installation Instructions:

These products must be screwed into a wood stud or on wood blocking for proper secured installation. If your walls don't have blocking, add it by nailing a piece of plywood into the studs.

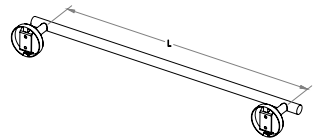

1 A : For Single-Post Accessories:

Position the mounting flange, confirm its alignment, and then mark the hole locations.

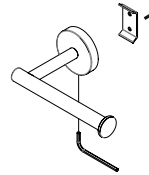

1 B : For Two-Post Accessories:

Use a level to confirm location of product. Position the mounting flanges as template to mark the holes.

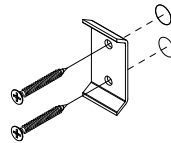

2 : For All Accessories:

Loosen the setscrew and detach the mounting flange from the accessory.

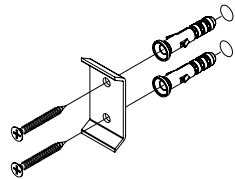

3 A : Drywall Into Studs:

Drill holes and securely attach the mounting flange(s) with screws only.

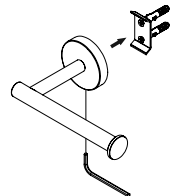

3 B : Ceramic Tile:

Drill holes, insert ceramic anchors, and then secure the mounting flange(s).

4 : For All Accessories:

Place the accessory onto the mounting flange(s) and tighten the setscrew(s).

TOOLS INCLUDED: Mounting Screws | Wall Plug | Allen Key | Mounting Flanges

CLEANING INSTRUCTION: Clean only with a soft damp cloth. Dry well. Do not use abrasive cleaners.
